PERHAPS YOU'RE THINKING EARLY WE'RE PLUGGING CHRISTMAS AND IT ISN'T THANKSGIVING YET!

Santa's job is getting bigger and bigger every year just from the stand-point of more children, more people. This year there are only 26 shopping days between Thanksgiving and Christmas. If everyone waited until after Thanksgiving, it would be a physical impossibility for the stores and their clerks to accommodate everyone.

The Bureau of Advertising estimates The Bureau of Advertising estimates an average annual expenditure for Christmas gifts per family at \$178.19 and the average number of individual gifts at 31.8 per family.

The 16.333 families in the Arlington Heights, Rolling Meadows area will be

shopping for approximately 512,128.6

separate gifts.
Imagine the chaos, confusion, short Imagine the chaos, confusion, short tempers and disappointments, were all these people to wait until after Thanksighing before starting their shopping for all these gifts.
